Contact Person Name and Number: _____

Total amount of hours: _____

Describe your duties or responsibilities:

Essay (Maximum of 500 words):

Jhanae was a huge advocate for the STEM areas of study. She realized that it may not have been the interest of others so she would encourage education in any field. She always envisioned her impact on others after her education was completed and during her college career, she found passion in more than her educational path. Where do you see yourself after completion of your college education and what impact are you hoping to make to society?

Authorization:
